1 / 2 SATA 4-/8-Channel High Resolution Network Video Recorder

Honeywell Black™ CALNVR-1004/2008CP series is an easy to use network recording solution designed for small scale surveillance. Featuring 1080P / D1 outstanding real-time recording resolution, 1080P HDMI & VGA output, compatibility with 1.3 Megapixel IP cameras, and advanced H.264 video compression, this NVR series optimizes recording quality to provide outstanding video performance at an economical price.

The user-friendly operation interface with button panel allows users to live view, record, playback, back up and remotely control the system simultaneously. Embedded with 1 SATA / 2 SATA interface to support 4TB HDD each slot, user can backup video quickly and have extra storage through USB interface.

The CALNVRView mobile view APP allows a quick remote access and control to CALNVR-1004/2008CP via your mobile phone. Free DDNS server service is available to support remote control of the NVR. The CALNVR-1004/2008CP also comes with a free CMS software CAL-CMS200 which provides rich functions such as video management, user management, storage, video output, etc. The multiple network monitoring functions provides an ideal way to efficiently view and monitor different areas of your valuable assets.

Market Opportunities

Featuring real-time recording up to 1080P / D1 resolution, the CALNVR-1004/2008CP series is an ideal solution for high definition surveillance. This easy-to-configure and easy-to operate NVR series is ideal for small scale surveillance installations such as in retail stores, dispensaries, clinics, offices or hotels.
